This is a fantastic book to outrage people at the atrocities allowed by white-collar criminals. Studies and details, in the explanation of each scheme, show either extreme disgust or journalistic honesty. Probably both, in fact. In this tutorial you will learn not about one scandal, but about many. Fewer than honest players or business people set out to come in all shapes and sizes: young and old, men and women, shy and outgoing, powerful and not so powerful, etc. a lot about character or lack of his absence in the business world portrayed; the culprits are people who could never be suspected, simply because they are beyond suspicion. An excellent tutorial is that it has captured the interest of readers with numerous examples of each type of fraud and crime that it describes. My only beef with this book was a haircut number of examples, sometimes it seemed that the book was more interested in exposing all the nasties out there than moving on with the instruction. It's not often a student likes a tutorial, but I learned a lot and enjoyed reading the case studies presented. The world's best #1 books for students.
